

# CT113 Vertical Fixed Beam Clamp

## Data Sheet

### Acceptable Installation Orientations:

(consult User Instruction Manual before use)

### Materials:

- Clamps: Steel (Zinc Plated)
- Support Bar: Steel (Zinc Plated)
- Swivel: Steel (Zinc Plated)
- Swivel Mount: Steel (Zinc Plated)

The ClimbTech Vertical Fixed Beam Clamp Anchor is designed to clamp on to a vertical or horizontal 'I' and 'H' -Beams, to create a fixed anchor point.

The Climbtech Fixed Vertical Beam Clamp is easily fitted and removed using the adjustment nut and flip-out lever (to give extra leverage for tightening/release of the nut). Visual indicators show when the device is tight and a red indicator is visible when the device has been over-tightened (see user manual for full information). The anchor is fitted with a swivel eye D Ring, which rotates through 360 degrees, with a 180 degree pivot.

<b>Adjustable Width</b>	101-355mm (4–14")
<b>Maximum Flange Thickness</b>	6.35 (1/4)
<b>Minimum Breaking Strength (MBS)</b>	22kN (5000lbf)
<b>Maximum User Weight</b>	140kg (310lbs)
<b>Working Load Limit WLL</b>	454kg (1000lb)
<b>Unit Weight</b>	3.1kg (2.9lbs)
<b>Standards</b>	Approved to: CE EN 795:2012 Type B. Complies with: ANSI Z359.7-2011, OSHA 1926.502
